

Your eyes perform hundreds of visual tasks each day. Checking the rear-view mirror. Reading a computer screen. Scanning the shelves at the market. Enjoying a book in bed.

And when you reach your mid-forties, it gets harder to see everything you need to see.

Now there's a new solution: SOLAOne™ progressive lenses.

Teflon *easyCare*  
LENS COATING

## SOLAOne™ with Teflon® EasyCare

Teflon® EasyCare Lens Coating is designed to complete your SOLAOne progressive lenses. A unique development in lens coating technology from SOLA International and DuPont, Teflon® EasyCare delivers the ultimate in visual clarity, combined with superior scratch resistance and easy cleaning.

COMPLIMENTS OF YOUR EYE CARE PROFESSIONAL

Extraordinary vision comes to life.

Introducing

SOLA1One™  
PROGRESSIVE LENSES

## SOLAOne™: Designed for real life.

### Extraordinary performance. Every day.

SOLAOne progressive lenses let you perform all of your daily visual tasks without the compromises of ordinary progressives. Whether you require sustained focus (for reading or computer work) or rapid shifts of focus (for driving, shopping or sports), you'll experience clearer, more comfortable vision with SOLAOne progressive lenses.

### The choice for better vision.

**If you wear progressive lenses now**, SOLAOne will take away the visual compromises of your current pair.

**If you're new to progressive lenses**, SOLAOne will restore the natural, comfortable vision you've been missing.

### Give your eyes every possible advantage.

Ask your eye care professional about SOLAOne. Advanced progressive lenses that meet the toughest challenge of all: your daily life. Available in a full range of thin, lightweight lens materials to suit your lifestyle.

**SOLAOne. Extraordinary vision.**
