ZEISS SLR Lenses
Overview of the lens families with high-precision manual focus for ZE and ZF.2 mount cameras

ZEISS Otus
The Otus lenses from ZEISS deliver uncompromising performance, even at full aperture. They are specially designed for modern DSLR cameras with high-resolution sensors. The Otus lenses from ZEISS on these cameras offer the standard of quality otherwise only achieved on medium format systems.

ZEISS Milvus
The Milvus lenses from ZEISS will impress you with their constantly excellent image performance across all focal lengths – regardless of whether they are used for portrait, landscape, event or other types of photography. They are optimized for high-resolution DSLR cameras.

ZEISS Classic
The Classic lenses from ZEISS have enjoyed an outstanding reputation with photographers all over the world for many years now – and rightly so. This lens family is characterized by its classic appearance and high optical performance.
When your expectations change forever.

ZEISS Otus Lenses

The Otus lenses from ZEISS. Experience a new dimension. The Otus lenses are the pinnacle of over 125 years of expertise and experience in optical and mechanical excellence. Only the best materials and the highest quality glass were good enough for lenses that were designed, at every stage, with one single thought in mind: to offer the highest possible performance. Achieving the simple goal of offering you something that is truly perfect.
ZEISS Otus
A lens family that makes no compromises.

The Otus lenses are especially designed for modern DSLR cameras with high-resolution sensors. They offer the uncompromising quality of medium format systems – for an affordable price.

Medium-format performance
- The quality and performance of medium format systems – even at the highest apertures
- Consistently high resolution and contrast over the entire image frame – even into the corners
- No chromatic aberration, no distortion

The highest precision and build quality
- Highly precise mechanical build quality and a large rotation angle for exact work
- Robust all-metal construction
- Easy-grip focus ring for the finest of manual focus adjustments
- Comes standard with a matching lens shade

For professional demands
- Elaborate optical corrections make for substantially less time spent in image processing and in post-production
- Innovative product design for the best usability and the highest aesthetic standards

The superb interplay of light and shadow, the right image section combined with brilliance, high resolution and a fitting exposure time achieve the desired motion blur.

Ralph Koch
Uncompromising performance across the entire image field makes this full-frame lens unique and sets new standards among wide-angle focal lengths. Raise your photos to a totally new dimension by capturing even the tiniest details of your subject.

ZEISS Milvus Lenses

Constantly pushing back boundaries – that is ZEISS’s mission as a technology leader. Now ZEISS has developed a new family of products designed to unleash the performance of modern, high-resolution DSLR cameras: the Milvus lenses from ZEISS for ZE and ZF.2 mount cameras.

From portraits and landscapes to architectural and street photography, ZEISS has the right focal length and the best imaging performance for every situation. With optimum image quality, full focus control, and a cutting-edge design, you can be confident of getting your subject and its creative potential firmly in the foreground, giving unique results every time.
Optimal image performance for all focal lengths
The Milvus lenses from ZEISS will impress you with their constantly excellent image performance across all focal lengths – regardless of whether they are used for portrait, landscape, event or other types of photography. The new Milvus lenses from ZEISS have been optimized for high-resolution cameras.

Whatever the application, their precise, manual focus ensures that the ZEISS Milvus lenses are the perfect tools to implement your creativity.

Outstanding image quality
- Outstanding image performance, optimized for modern, high-resolution DSLR cameras
- Excellent reflection reduction thanks to T* anti-reflective coating from ZEISS
- Excellent contrast in even the finest details
- Standardized color characteristics over all focal lengths
- Practically distortion-free
- Almost circular aperture with nine blades enables an exceptionally harmonious bokeh

High precision
- Extremely accurate manual focusing for high-precision photography thanks to easy-to-grip focus ring
- De-click function (ZF.2) for continuous aperture setting for videography

High-quality workmanship
- Modern and ergonomic product design
- Robust, all-metal barrel design for many years of use
- Weather and dust protection
- Matching lens shade included

Embrace your vision and you’re truly free to create.

ZEISS Milvus 2.8/15
Infinitely wide

The super wide-angle lens with a field angle of 110° ensures outstanding image quality, even at full aperture, and exceptionally low distortion.

A detachable lens hood and the 95 mm filter thread also make it ideal for special applications with additional slot-in filter holders.

ZEISS Milvus 2.8/18
New viewing angles

The compact super wide-angle lens with a completely new optical design is ideal for landscape and architectural photography and enables creative photography from extraordinary perspectives. It offers impressive performance across the entire image field. With its exceptionally low distortion and optimal color correction, it has been optimized for high-resolution cameras.

ZEISS Milvus 2.8/21
Master of horizons

The ZEISS Milvus 2.8/21 super wide-angle lens of the type Distagon from ZEISS is the best in its class. Thanks to its maximum aperture of f/2.8, the reflection-free and practically distortion-free super wide-angle lens is perfect for spectacular image compositions of great diversity, dramatic contrast and vivid colors.

The further optimization of the lens coating reduces ghosting, flare and shading effects in critical lighting situations.

ZEISS Milvus 2/35
Versatile reporter

The ZEISS Milvus 2/35 of the type ZEISS Distagon is a moderate wide-angle lens that is ideal for capturing all scenes in their full natural brilliance – nothing will escape its attention, even in poor light. Its compact design and fast, precise focusing make the lens particularly suitable for photojournalism.

And thanks to its high performance and versatility, it is always ready for those unexpected moments.

**ZEISS Milvus 1.4/50**

*More than a standard lens*

The redesigned ZEISS Milvus 1.4/50 corresponds to the perspective of the human eye in conjunction with full-frame cameras and can therefore be used for many different purposes. In other words, it is a lens of many talents. Realistic imaging of three-dimensional objects is guaranteed at all times.

Despite its high speed, the advanced ZEISS Distagon optical design ensures outstanding imagery – even at full aperture.

The champion of bokeh

The redesigned ZEISS Milvus 1.4/85 lens is particularly suitable for portrait photography. This lens is an absolute must for compositions where the main subject is to be sharply defined and emphasized against a beautiful bokeh background.

The purely spherical optical design and use of special types of glass ensure optimal microcontrast and extremely low chromatic aberration. The result: outstanding photographs every time – with the champion of bokeh.

ZEISS Milvus 2/50M
Big meets small

Breathtaking details in close-up and traditional portraits are the strengths of the ZEISS Milvus 2/50M of the type Makro-Planar® from ZEISS. Thanks to its excellent performance at all ranges this macro lens can be used for a wide variety of applications. The further optimization of the lens coating reduces ghosting and flare effects in critical light situations.

The currently fastest 50 mm full-format macro lens on the market will let you highlight even the smallest detail in the foreground or background.
**ZEISS Milvus 2/100M**

**Bridging the gap**

The ZEISS Milvus 2/100M of the type ZEISS Macro-Planar is currently the fastest 100 mm macro lens on the market and closes the gap between long range and breathtaking close-up shots. This lens bridges distances and allows unique image compositions.

Its precise mechanical components with a large focus throw permit precise control which is particularly important for macro photography in the close-up range.

ZEISS Classic Lenses

Excellent workmanship, fast apertures and legendary bokeh – these are the outstanding features of the ZEISS Classic lenses.

Unlike standard autofocus lenses, they offer highly precise, intuitive manual focus. And, of course, they support all other automatic functions found in standard lenses.
The ZEISS Classic lenses were developed for ambitious photographers and their wide diversity of applications: macro, landscape, architecture, portrait, journalism, fashion and beauty. Thanks to their excellent value for the money, the ZEISS Classic lenses offer an excellent entry into premium class photography.

Intuitive, exact image control
- Extremely accurate manual focusing for high-precision photography
- 1/2 f-stop intervals with easy-to-feel lock-in positions and exact photometric graduation in ZF.2 lenses

High-quality workmanship
- Robust, all-metal design for many years of use
- Durable front ring with filter thread and outer bayonet
- for lens shade (part of standard package)
**ZEISS Distagon T* 2/25**

### Design

- Distagon with 10 elements in 8 groups
ZEISS Distagon T* 2/28

Light in the dark

High speed and compact fixed focal length for difficult lighting. Optimized against stray light and reflection. The combination of focal length and fast aperture makes it suitable for a broad spectrum of applications.

Design

- Distagon with 10 elements in 8 groups
- “Floating elements” design
ZEISS Distagon T* 1,4/35
Wide-angled bokeh

Use the in- and out-of-focus effects and the exceptional bokeh created by this lens to obtain the optimal effect. Through high image quality even at full aperture, the details of the main subject can be imaged to perfection.

Design
- Planar with 7 elements in 6 groups
ZEISS Planar T* 1,4/85
The character in focus

As a classic focal length for portraits, this high-speed tele lens concentrates on the essentials. Its shallow depth of field makes it suitable for isolating the main subject from the foreground and background.

Focal length 85 mm
Aperture range f/1.4 – f/16
Elements / groups 6 / 5
Focusing range m / inch 1 – ∞ / 39.37 – ∞
Field angle* (diag. / horiz. / vert.) 29° / 24° / 16°
Coverage** mm / inch 240 × 360 / 9.45 × 14.17
Compatible with Canon or Nikon SLR / DSLR cameras***

*Based on full-frame format. **At close range. ***Canon is a trademark or registered trademark of Canon Inc. and/or other members of the Canon Group. Nikon is a registered trademark of Nikon Corporation.

Writing stories with light and shadow.

ZEISS Camera Lenses
**Original accessories and care products**
from ZEISS

This puts the perfect finishing touch to the unique product experience offered by the ZEISS lenses.

**ZEISS T* UV filters and POL filters (circular)**
These filters with T* anti-reflective coating optimally protect your front lens. The UV filters give your pictures more brilliance, and the POL filters reduce reflections on non-metallic surfaces and increase color saturation.

- High fit accuracy for fast filter change
- Can be used with a lens shade
- Available in all standard sizes

**ZEISS Lens Cleaning Kit**
The ZEISS Lens Cleaning Kit is packed in a fabric belt bag and contains:

- Lens cleaning solution
- Dust brush
- Microfibre cloth
- Ten moist cleaning wipes
- User manual for professional lens care
- Air blower

Application notes at: [zeiss.com/photo/cleaning](http://zeiss.com/photo/cleaning)

**ZEISS Air Cell comfort camera strap**
With patented Air Cell padding, this camera strap minimizes shoulder and neck strain, even with heavy equipment.

- High degree of wearing comfort with Air Cell padding
- Strap length adjustable at both ends
