

Prevent unwanted sun glare and reflections.

ZEISS DuraVision Sun

// RELIABILITY
MADE BY ZEISS

NEW ZEISS DuraVision Sun provides state-of-the-art glare reduction with unparalleled clarity, cleanability, and toughness.

- Excellent anti-reflective properties on the back of a sun lens to compliment the protection of the lens itself.
 - » Low Reflectance Blue AR color
 - » Anti-static layer
- Super-hydrophobic coating on the front and back of the lens.
 - » Effortless cleaning
 - » Longer-lasting cleanability
- Extremely durable for every day wear-and-tear.

ZEISS DuraVision Sun.

From the inventors of anti-reflective lenses.

Outstanding Clarity.

With less than 1% luminous reflectance, DuraVision Sun delivers crisper vision and is virtually free from distracting reflections.

The **DuraVision Sun arctic blue hue** reduces up to **50%** more reflections than other leading anti-reflective lenses, so your patients will see the world with extraordinary clarity and brilliance.

Longer Lasting Cleanability.

Leading super-hydrophobic technology keeps lenses cleaner up to 2X longer.

DuraVision Sun offers advanced super-hydrophobic and oleophobic technology from ZEISS. Combined with our state-of-the-art anti-static technology, DuraVision Sun coated lenses are easier to clean and stay clean longer.

- » Everything your patients need for complete sun protection.
- » Everything you need to grow your AR business
