Spectacle Lenses by ZEISS
Product Portfolio

The ZEISS lens product portfolio offers a variety of different product solutions. No matter what vision problem wearers are facing, they can be sure to find the right offering for their needs within the ZEISS portfolio – regardless of whether they need thin lenses, light lenses, correction for special distances or special filters or treatments to increase their visual comfort: ZEISS has always the right product solution.

ZEISS Smartlife Lenses
Take on everything your eyes face today.
**Single Vision Lenses**

Single vision lenses are lenses with only one dioptric power. They are primarily used for single power distance or reading spectacles.

[More](#)

**Progressive Lenses**

Progressive lenses provide presbyopes with clear vision in all distances. The power of the lens continuously increases from the distance to the near zone.

[More](#)

**Office Lenses**

Office lenses provide relaxed and clear vision from near to intermediate distances and are specially designed for office tasks.

[More](#)

**Myopia Management Lens Solutions**

The most comprehensive myopia management spectacle lens portfolio specially designed for children.

[More](#)

**Digital Lenses**

Mobile digital devices have conquered the world at an extremely fast pace and bring about new challenges to the human eye.

[More](#)

**DriveSafe Lenses**

With ZEISS DriveSafe Lenses, ZEISS is introducing a new lens product category for everyday use. It is specifically designed to meet the vision needs of people who want to feel safer and more comfortable when driving with their everyday lenses.

[More](#)

**EnergizeMe Spectacle Lenses**

The first spectacle lenses made for refreshing after contact lens time.

[More](#)

**Sports Lenses**

Sport Lenses provides the optimum optical correction for all curved frames - and makes aberrations a thing of the past.

[More](#)

**ZEISS Precision lenses with i.Scription Technology**

An optimised individualised lens solution with i.Scription technology for improved colour and contrast vision as well as improved night vision.

[More](#)

**Multifocal Lenses**

Multifocal lenses provide presbyopes clear vision for two or three different ranges, usually for distance, intermediate and near vision.

[More](#)

**Special Lenses**

In this category you can find special product solutions, like lenses with lenticular bevels.

[More](#)
ZEISS is one of the world’s leading manufacturers of spectacle lenses, and is committed to delivering maximum precision and comfort. ZEISS designs and produces lenses, instruments and measurement systems, as well as retail concepts and technology services that continue to raise the bar in vision care.
