

ZEISS Multifocal Lenses

Classical Product Solutions for Presbyopes

Bifocal-/ Trifocal lenses provide presbyopes with clear vision for two or three different ranges, usually for distance, intermediate and near vision. With a segment in the lower area of the lens, a bifocal or trifocal displays two or three different dioptric powers.

Products

ZEISS Safety Eyewear with individual correction.

You do not have to compromise between safety and perfect vision.

It is important to identify workplace risks and ensure that employees always use appropriate Safety Eyewear whenever necessary. Injuries affecting the lens and retina, which contain the vision cells, carry the biggest risk of blindness.

Special Filter Lenses by ZEISS

special filter lenses for medical applications

Special filter lenses for medical applications completely absorb part of the visible spectrum. Receptors in the eye which are sensitive to this region are deliberately underexposed.
