

# Eyeglass Lenses by ZEISS

## Product Portfolio

The ZEISS lens product portfolio offers a variety of optical solutions, no matter what vision needs the patient may have.

**ZEISS Lenses with UVProtect Technology**  
Sunglass-level UV protection in clear lenses.

Oct 20, 2017

## Single Vision Lenses

Single vision lenses have only one dioptric power. They are primarily used for single power distance vision or reading.

[> more](#)

## Progressive Lenses

Progressive Lenses provide presbyopes with clear vision in all distances. The power of the lens continuously increases from the distance to the near zone.

[> more](#)

## Computer Lenses

Computer lenses provide relaxed and clear vision from near to intermediate distance and are specially designed for office and computer tasks.

[> more](#)

## ZEISS EnergizeMe Eyeglass Lenses

The first eyeglass lenses made for refreshing the eyes after contact lens wear.

[> more](#)

## Digital Lens

Mobile digital devices have conquered the world and bring about new challenges to the human eye.

[> more](#)

## DriveSafe

Most drivers are exposed to difficult driving conditions that impact their vision, including driving in rain, snow or fog, and of course driving at night. For most, this can be a major source of stress - in fact, over two thirds of adults report difficulty driving in these challenging visual conditions.

[> more](#)

## Sports Lenses

Sport Lenses provides the optimum optical correction for all curved frames - making aberrations a thing of the past.

[> more](#)

## ZEISS Precision lenses with i.Scription Technology

An optimised individualised lens solution with i.Scription technology for improved colour and contrast vision as well as improved night vision.

[> More](#)

## Multifocal Lenses

Multifocal lenses provide presbyopes clear vision for two or three different ranges, usually for distance, intermediate and near vision.

[> more](#)

## Special Lenses

In this category you can find special product solutions, like lenses with lenticular bevels.
