

## Polarized Lenses by ZEISS

ZEISS precision sunglass lenses with polarization filter

Who hasn't experienced the glare of reflected sunlight on wet or shiny surfaces? This glare can have a negative impact on our vision, particularly while driving. It's a good thing that an effective remedy is available: **ZEISS sunglass lenses with polarization filter reliably counteract glare.**

Polarized light reflections can lead to disturbing glare. This is effectively filtered by polarizing lenses from ZEISS. Vertical micro-mesh structures eliminate the horizontally oscillating element of light which is responsible for a great deal of glare. A further key advantage is more sharply focused vision. Contours become clearer; vision in bright sunlight is perceived as considerably more relaxing and less fatiguing. In other words, these lenses don't just protect your eyes against the sun – they also ensure improved vision without irritating glare.

## Polarized

Polarizing sunglass lenses by ZEISS in the standard colors of brown, grey and pioneer (grey-green) - 85%.

Color: Polarized Brown 85%

Color: Polarized Grey 85%

Color: Polarized Green 85%

## Skylet Polarized

Skylet Polarized lenses combine a polarization filter with contrast enhancing > [Skylet® tinting](#) for a unique visual experience in challenging light conditions.

Polarized Skylet Fun

Polarized Skylet Road

Polarized Skylet Sport

### The benefits for the wearer

- ✓ Polarizing filter against irritating reflections
- ✓ Optimized glare protection
- ✓ 100% solar UV protection
- ✓ Light and comfortable to wear
- ✓ Attractive range of colors with the benefits of the Skylet® technology:  
Fun, Road, Sport
